MADE IN THE USA

Since 1945 Peripole was the first United States manufacturer of musical instruments for general elementary music education.

From our Tymptone Drum, to all of our jingle-bell products, to our woodblocks, and much more, Peripole has remained a solid US manufacturer, despite the temptation to seek cheaper overseas sources. We also contract with several other US manufacturers for manufacturing and/or distribution. In fact, you will find well over 100 items in this catalog manufactured exclusively in the USA.

Although we do offer many cost-competitive, non-US made products, our commitment to growing our US manufacturing and quality is absolute. We are also proud that our Orff Instruments are manufactured in France, a country with outstanding industrial standards, similar to our own.

Cooperative Purchasing Partners

Peripole, Inc. is an awarded vendor with several cooperative purchasing agencies. These agencies create and award a bid, on a state and / or national level which can be utilized or "piggy-backed" on by any school or non-profit institution. In this way schools, churches, and other non-profits, who do not have the resources to issue and award bid quotations can know that they are receiving the best value and price, while fulfilling requirements for competitive bidding. For more information contact Carol Lund, Sales Manager at carol@peripole.com or by telephone at (800) 443-3592.

STILL MAKING MUSIC "GREEN"

Being "in harmony" means a lot of things to a lot of people. But as our planetary time passes and populations grow, it has become critical to consider the long term health and harmony of not only the people and other living things that inhabit the earth, but also the health of the living ecosystems of the planet itself.

Peripole, Inc. has always taken this commitment seriously from the time when we began our own program to reuse shipping boxes in 1992 to the present when we have completed an extensive insulation project including replacement of all of the large size windows on our building with energy conserving ones, thus yielding a smaller "carbon footprint". In 2008 we took the

additional step of purchasing 100% of the electrical power we use from renewable "green" sources. Additionally, we are proud that this catalog is printed on recycled paper with soy ink.

You may have noticed that we favor natural, biodegradable, renewable and recyclable materials in the construction of our instruments and in our packaging materials. This is not an accident. We seek to avoid using products that are harmful to the environment and to individual health, and we favor natural authentic materials such as wood and tunable skins for drums, but always with an eye to quality.

A Different Kind of Beginning

The year was 1945. World War II was near its end, but still raging in Europe and in the Pacific. A couple of young music educators and parents, upon the urging of their famous mentor, Peter Dykema, Professor and Chair of Music at Columbia University Teachers College, decided to turn their talents toward making instruments for music education in elementary schools.

Sylvia and Mack Perry named their fledgling business "Peripole." Their first product was their signature "Tymptone" drum which was made in the living room of their apartment in Brooklyn, NY, from recycled and salvaged materials. No new materials were available because of the war effort, to which the entire country and its resources were marshalled. Each drum was hand-painted by Sylvia with small figurines.

The Perrys were soon delighted to receive an order from the famous Macy's department store in New York City, and being the "cottage" industry that they were, they had no choice but to deliver the order in the only freight carrier available to them — a baby carriage.

The years that followed saw Sylvia and Mack take Peripole out of their living room and into a storefront building. There was no one else making musical instruments for general music

education at the time, and the Perrys saw rapid growth in Peripole. They took over the store next door, then the one next to that, and finally moved into a commercial factory building.

In the early 1960s, established leaders in their field, the Perrys forged an alliance with the Orff-Schulwerk movement in Europe and made history by becoming the first company to import Orff instruments into the United States for sale to schools. The Perrys were also charter members of AOSA. In 1974, after launching two famous brands of Orff instruments in the United States, the Perrys made a new partnership with the Bergerault company in France, having finally found a company whose Orff instrument quality matched their own high standards of manufacture.

In 1992, seven years after Mack's death, company founder Sylvia Perry moved to Salem, Oregon, to join forces with her son, now company president, Dr. Andrew Perry, then a practicing physician, who had been involved with the company and music education throughout his life. Andrew welcomed the return of the company into his life and, together with the added partnership of the Bergerault Company, Peripole was established in Salem.

**Andrew Perry,
President
Peripole**

Dr. Andrew Perry has served as President of Peripole, Inc. for the past 29 years and has spent most of his lifetime involved in music education. As the son of Sylvia and Mack Perry, he grew up traveling to, and participating in, musical conferences and workshops all over the U.S.A. He has been involved in every facet of Peripole, Inc. throughout his life, and is himself a musician. He is responsible for many of the innovative changes made in Peripole® products including being the inventor of the Peripole® Halo® Hanger neck strap for recorder, which was awarded five U.S. patents, and being instrumental in the development of the Peripole® Sienta® Series Drums and our World Music products. Recently, his personal interest in ukulele and guitar has led to marked expansion of those lines.

Dr. Perry has pursued a dual career in both holistic and preventive medicine and music education. He holds a Bachelors Degree in Humanities and a Doctorate Degree in Naturopathic Medicine. He is a Licensed Naturopathic physician, and was formerly Department Chairman of Physical Medicine at the

National University of Natural Medicine in Portland, Oregon. He continues as a conference presenter, post-graduate educator, and practitioner in this field.

Andrew is dedicated to serving the needs of music educators and professionals with quality products and services. Through his combined involvement in music and wholistic medicine, and participation in his own family's musical education, Dr. Perry has developed a special enthusiasm for the role of music in emotional and physical health and well-being. Peripole, Inc. has proven to be the perfect vehicle for his active participation in the advancement of music education and music therapy.

He has been co-recipient, along with Sylvia Perry, his mother and company founder, of Distinguished Service Awards by the California Music Educators Association, Florida Music Educators Association, Oregon Music Educators Association, Tennessee Music Educators Association, and Wisconsin Music Educators Association.

Ami Halverson

Ami Halverson — Being raised in the Peripole Family, Ami has been brought up in music all her life, deeply ingraining a love for music and music education. Ami began working for Peripole as Executive Assistant to company founder Sylvia Perry, but soon found herself working independently to spearhead some of Peripole's key programs such as website administration, social networking, and catalog development. Ami attended

the University of Portland where she had a double major in guitar performance and Japanese Language. She is a small business owner and has taught different types of movement and dance. She continues to play a key role in development of many of Peripole's newest and most innovative programs. Ami loves dogs, cats, and playing music with her family band.

MEET OUR PRINCIPALS

Cak Marshall is a career music educator. She taught at O'Hara School in the Fox Chapel Area School District, Pittsburgh, Pennsylvania. She holds a BS in Music Education from Indiana University of Pennsylvania; an MME from Duquesne University in Pittsburgh, PA; Apprentice and Master Level Orff Certification from the University of Memphis in Memphis, TN; Orff Levels I, II, and III from Hamline University in St. Paul, MN; and Kodály Level I from Duquesne University.

Cak was the recipient of the PMEA Citation of Excellence, the highest honor bestowed by the Pennsylvania Music Educators Association. Cak wrote for PMEA NEWS (the Pennsylvania Music Educator's State Journal) as Elementary Column Coordinator for over twelve years. Cak was also founding President of the Pittsburgh Golden Triangle Chapter of the American Orff-Schulwerk Association. She also served as editor of PGTPRESS, the Pittsburgh Chapter's Newsletter.

Cak continues to present workshops throughout the United States. She has presented in 37 of the 50 states for AOSA Chapters; AOSA National Conferences; and NAfME (formerly MENC) State, Divisional and National Conferences. She taught Level I Orff Certification Courses in Florida, Wisconsin, and Virginia.

Ms. Marshall is the author of *TOOTLES* and *TOOTLES 2* books for beginning recorder ensembles using two sopranos and one alto recorder, published by GIA in Chicago, IL. She also wrote *SOUND STORIES* and *BEATWORX* for preschool. Both are available exclusively from Peripole, Inc.

Cak enjoys singing with her local Master Chorus and playing recorder with an early music mixed consort.

Dr. René Boyer is our Music Education Advisor and Consultant. Dr. Boyer received her Bachelors and Masters degrees from Southern Illinois University in Edwardsville, Illinois, and her Doctorate Degree from Washington University in St. Louis, Missouri. She possesses all levels of Orff Certification, as well as Kodály Certification in Solfege, Techniques, and Teacher Training from Hungary.

René currently holds the distinguished position of Professor Emeritus of the University of Cincinnati's College Conservatory of Music, where she also was the founder and administrator of their Orff Schulwerk Certification Courses for over twenty years.

Dr. Boyer has served as the President of the National Association for the Study and Performance of African-American Music (NASPAAM) and a Conference Chair for the National Urban Music Leadership Association.

She is one of the principal authors of Share the Music, *Spotlight on Music* and most recently, *Music Studio* Digital Multimedia/Text Series, published by McGraw-Hill Education. She has written many books for music educators, including an authoritative text for classroom teachers, published by Pearson, Music Fundamentals, Methods, and Materials for the Elementary Classroom Teacher.

René brings her considerable expertise in providing Music Education to Urban and Inner City Schools, as well as in the music of other countries and cultures. She is a renowned and world-wide lecturer, having lectured and taught in Europe, Australia,

Asia, Africa and throughout the entire United States. Her most recent books include *Songs and Rhythms of a Nation*, featuring music of each of the fifty states, and *Out of the Mouths of Babes*. (see page 55)

Kalani Das is a board-certified music therapist, professional percussionist, and certified Orff-Schulwerk music educator.

As a performing and recording artist, he has worked with music legends Rod Stewart, Kenny Loggins, Barry Manilow, Max Roach, John Mayall, Yanni, Benise, and Suzanne Ciani, as well as appearing on numerous soundtracks for both TV and film. He has written numerous books and produced several DVDs and CDs regarding music instruction. He is the author of the book, *The Way of Music-Creating Sound Connections in Music Therapy* (Sarsen Publishing).

Kalani has presented sessions for the National Association for Music Education, the Percussive Arts Society, and the American Orff-Schulwerk Association as well as many state, regional, national, and international music education conferences. In the field of Music Therapy he has presented CMTes, and Institutes at several AMTA conferences, including the Western regional, Great Lakes regional, and National.

He is the founder of the Developmental Community Music approach to music-centered wellness (playinglaugh.com), co-author of the *Music Therapy Drumming* curriculum, for which he is an MTD Trainer (musictherapydrumming.com), and creator of the *Hula for Life* wellness program for older adults (hulaforlife.net).

Kalani's work in music therapy includes adults in addiction recovery, persons with TBI, and adults with developmental disabilities. He is currently music therapist and fieldwork supervisor at the Tierra Del Sol Foundation, an adult day facility that provides educational and employment opportunities for persons with developmental disabilities.

For more information visit Kalani's business website (kalanimusic.com) and his personal site (kalanidas.com).

Mathieu and Alexandre Fergeau are President and Executive Director of Bergerault, France; the sons of Past-President Gilles Fergeau; and the grandsons of Company Founder, Albert Bergerault. They both bring a broad array of technical skills to their work and are third generation Master-Craftsmen, specializing in the manufacture of percussion instruments and, in particular, keyboard percussion. Their knowledge and expertise in this field is unparalleled. They have led the company to the highest level of instrument quality while modernizing manufacturing and instrument design techniques. Their leadership recently led to the company being awarded the status of "Entreprise du Patrimoine Vivant" or "Enterprise of Living Heritage" by the Government of France.

Mathieu and Alexandre bring to the Orff Instrument manufacturing process, the same skills and expertise that have led to their professional instruments being used by famous orchestras and musicians all over the world, including the Opera de Paris, Boston Symphony, Scallia Millan, and Bolshoi Ballet to name a few.

PARTNERS IN MUSIC EDUCATION®

Every year, Peripole, Inc. makes major contributions to the support of music education, locally, state-by-state, and nationally. These contributions take many forms and we are proud to call our program **Partners in Music Education®**. Today, we make the commitment to continue to grow this program.

Many of our close friends in music education who share an awareness of this effort have said, "Until I worked by your side at a conference, I had no idea how much you did and how hard you work to support us. If only everyone knew!"

We at Peripole, Inc. take this partnership very seriously. As a company dedicated to serving music educators, we see ourselves as having a key leadership role to play in helping to establish and maintain the highest possible standards in music education, thus helping to bring those standards to classrooms all over North America.

Contributions Have Included:

- Sponsorship of keynote and other presenters at numerous local, state, and national music educators' conventions and in-service days.

- Provision of Bergerault® Orff Instrumentaria; Peripole® Percussion instruments; and free Peripole® Halo® Recorders at sessions, clinics, and courses nationwide.
- Donation of Instrumentaria to special non-profit music education organizations such as NAFME and AOSA.
- Donation of door prizes and special awards at conventions, courses, and chapter meetings nationwide.
- Donation of instruments to schools hit by natural disasters.
- Donation of instruments to schools in other countries coping with poverty, political strife, and natural disasters.
- Special discounts to selected title one schools.

We are very proud of these contributions to music education. In the years since this program began, the need for it has grown exponentially. We have endeavored to rise to the challenge. We thank all of our loyal customers who have supported us and have enabled us to be in a position where we are able to return something to the music education community as a whole. We also thank the many talented and gifted clinicians who have worked with us in these endeavors.

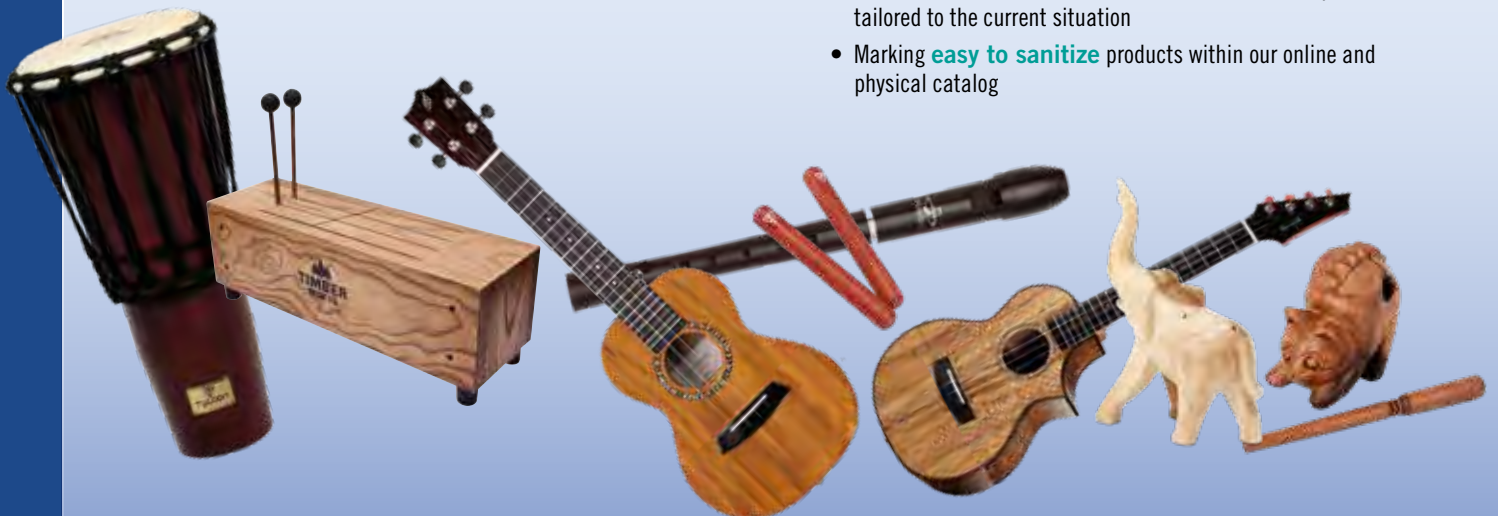

SUPPORTING OUR TEACHERS

Peripole knows the music classroom is going through changes, but we are ready to adapt with you to bring you the best quality, and workmanship, great musical function of instruments, and competitive prices.

We will continue our efforts to encourage music and learning for children during this time by:

- Coupons and deals for instruments and materials that will work well for personal and at home learning as well as a clean and safe classroom!
- Continued supply of high-quality instruments at the lowest possible price.

- Price matching of all products with identical products offered by competitors.
- Continued partnership and sponsorship of music educators' virtual events and training, including the sponsorship of top nationally and internationally renowned clinicians.
- New resources for teachers, students, and parents tailored to the current situation and curriculum. These resources currently include our new Peripole Presents webpage, a continually updated funding guide, and our Peripole Blog where we will continue to share up to date information regarding music education opportunities, new products, instrument guides and more!
- Shared links to resources for teachers, students and parents tailored to the current situation
- Marking **easy to sanitize** products within our online and physical catalog

ANNOUNCING THE LAUNCH OF PERIPOLE PRESENTS

Peripole Presents is the newest facet of our Partners in Music Education® program! Here we bring you new and exciting resources such as lesson plans and ideas, informative video series, virtual learning opportunities and other educator and community driven information.

In these uncertain times, music educator training is limited and everything is new and uncharted! Here we want to bring you NEW

information on ways to utilize current technology to teach, but we also want to bring you the techniques you would be learning through continuing education. Together we are shaping our children's future, and Peripole Presents is one of our new ways of directly supporting teachers and parents in bring music to everyone. Our hopes for this program is that it will be a well-rounded, website for music educators to find inspiration to apply to their classrooms

A COMMITMENT TO EXCELLENCE

BY DR. RENE BOYER

It is my pleasure to serve as consultant and diversity specialist for Peripole, Inc. As an educator and clinician. I believe that every child, regardless of who he or she is, or where he or she is from, should have the opportunity to experience music in an exciting and stimulating learning environment.

Children should have opportunities to sing and move to rhythms; listen to musical selections with specific learning objectives in mind; and learn to read, write, and analyze music from a variety of styles and genres. These are crucial components that should be part of every music program. Another component of music teaching and learning, that I have purposefully saved until last, involves playing instruments. Playing instruments captures the imagination, the joy, and excitement of almost every child. This musical activity also helps build bridges of conceptual understanding and aesthetic enjoyment for children who seek more concrete forms of music making and appreciation. They can produce their own music through blowing, hitting, strumming and striking different pitches with mallets.

In order to help realize this philosophy, one shared by many music teachers, children must have administrators and teachers who understand the importance of providing students with the best possible tools and materials with which to work. In the general music classroom, this means the use of quality instruments and other materials that allow children to develop high levels of musical and aural sensitivities that help them grow as young music-makers.

It is especially important for me to use high quality instruments, so that I can maintain a high level of musicianship and quality of tone while working with students and teachers. I have successfully used Peripole® Orff instruments for years. Overall, I find consistency in pitch and intonation on these instruments to be particularly gratifying. There is a richness of sound, timbre and retention of tone that is consistent, making it easier for me to have many children performing at the same

time. That is because all of the instruments are in tune and share the same timbre with one another. The bell chime timbre that resonates from the glockenspiels has always been a measuring stick for me when selecting barred instruments. In fact, it is the clarity and quality of sound, as well as the superb craftsmanship of all the Peripole barred instruments that attracted me to these particular instruments. Once a mallet hits a bar, no further explanation is needed.

Constructed in Ligueil, France and shipped to their sole distributors, Peripole, Inc., in the USA, these instruments are continually sought after by school districts, colleges and universities, religious institutions, and others. Knowing that these instruments come from a family-owned business that has a long tradition and commitment to musical excellence, gives me confidence when using them in schools and in my workshops; not to mention the fact that my frequent visits to the factory in Ligueil have revealed that Peripole instruments are made by the same expert craftspeople and technicians who make professional marimbas and xylophones used by major symphony orchestras throughout the world. This is why the instruments are so unique and why I am musically attracted to them.

Peripole, Inc., and their French counterpart Bergerault, continue to be dedicated to quality education and musical excellence. Peripole's presence at numerous summer courses, as well as national, state, and teacher in-services, underscores its strong commitment to providing quality instruments and service to music teachers worldwide. Along with its outstanding product line, the company is characterized by a customer-centric culture. Peripole, Inc. continues to provide assistance to individuals, organizations and institutions that seek its professional guidance and support. Many schools enjoy thriving Orff Schulwerk programs, thanks to the partnerships that continue to evolve between Peripole, Inc. and school music personnel.

I am proud to be part of the Peripole family, and I look forward to partnering with you as we work together to achieve success in music education.

Experience
the best!

Exclusive Distributors

Tradition Founded by instrumental and mechanical genius, Albert Bergerault in 1932, the Bergerault Company has continued in France for three generations, each training the next.

Expertise Expertise cannot be taught, it must be learned by experience. From the selection of rosewood for optimum physical properties for sound production; to tuning, bar dimensions, and style; Bergerault has painstakingly explored and found the techniques needed to construct great instruments. These techniques are present in their world-renowned mallet percussion instruments as well as Bergerault® Orff instruments.

Quality From the chromed steel bars on our glockenspiels (other brands using raw steel, nickel-plating, or aluminum) to the individually pitched resonator tubes and intrinsic stands of our Chromatic Orff Instruments, to the superior rosewood quality and larger dimensions of our wood bars, Bergerault® Orff Instruments have multiple features not found in other brands of Orff instruments. These select features are detailed in the Specification sections of each instrument.

Service Peripole, Inc. is the exclusive North American source of Bergerault® Orff Instruments. We provide service, parts, and expert consultation regarding our instruments which are backed by our Triple Guarantee! (See pg. 63)

**PLEASE CONTACT US SHOULD YOUR
SCHOOL OR DISTRICT REQUIRE

XYLOPHONE SPECIFICATIONS

(see diagram - bottom right)

Rosewood Bar Quality:

- ① Removable bars made of prime, high-density rosewood, **aged at least six years**, with additional special de-humidification treatment, for precise control of moisture content, thus ensuring long-term accuracy of tuning and pitch, even in humid climates.
- ② Rich, resonant rosewood sonority throughout the entire range.
- ③ Flawless grain and finish.

Techlon Bar Quality:

- ① **Bergerault® Techlon** is a unique proprietary composite material that has a sound closer to rosewood than other synthetic bars.
- ② Surpasses other fiberglass/synthetic bar instruments in richness of tone quality.
- ③ Provides maximum protection from variations in humidity.

Bar Features:

- ④ **Extra-wide** bars precisely tuned to A440, and overtone-tuned. Bars range in size from 1⁵/₈" wide x 5⁵/₈" thick for the Soprano and Alto models to 2" wide x 5⁵/₈" thick for Bass models. Professional size bars enhance sonority.
- ⑤ Holes for placement of bars on the pegs are countersunk to prevent gouging of the wood as the bars are taken on and off.
- ⑥ Long-lasting, heavy-duty metal posts to hold bars with heavy-duty solid neoprene rubber to support the bars.

Resonator Boxes:

- ⑦ Built-in mallet storage on each instrument.
- ⑧ Box constructed of solid hardwood and covered externally with laminate finish for durability and easy cleaning.
- ⑨ Top and sides both glued and screwed together.
- ⑩ Solid design construction at base of instrument for greater strength.
- ⑪ Interior partitions capped to prevent buzzing.
- ⑫ Interior boxes specially tuned.
- ⑬ **FREE attached wood storage box to hold F# and Bb bars.**
- ⑭ Resonator box interior design for optimal and equal resonance.
- ⑮ Lift ledges for easy carrying.

It took 10 years of design and research to create the composite materials used in our Bergerault® Techlon Xylophone Bars in order to satisfy our uncompromising high quality standards!

METALLOPHONE SPECIFICATIONS

Bar Features:

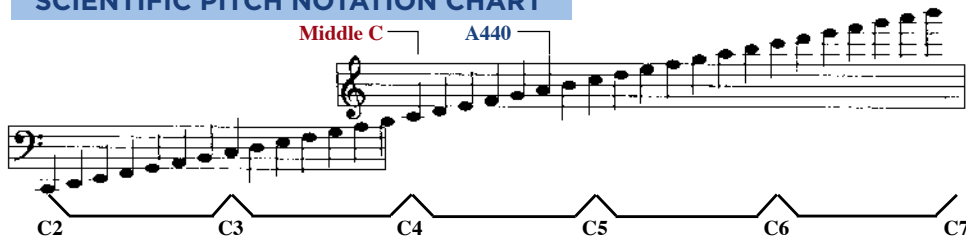

- ① Thick, **extra-wide**, bell-aluminum bars, ranging in size from 1 5/8" wide x 5/16" thick for the Soprano and Alto models to 2" wide x 1/2" thick for the Bass models. Professional size bars enhance sonority.
- ② Rich, resonant tone throughout the entire range.
- ③ Removable bars each precisely tuned to A440 and overtone-tuned.
- ④ Holes for placement of bars on pegs are countersunk for easy placement and removal.
- ⑤ Long-lasting heavy-duty metal posts to hold bars with heavy-duty solid neoprene rubber to support the bars.

Resonator Boxes:

- ⑥ Box constructed of solid hardwood and covered externally with laminate finish for durability and easy cleaning.
- ⑦ Top and sides both glued and screwed together.
- ⑧ Solid design construction at base of instrument for greater strength and durability.
- ⑨ Interior partitions capped to prevent buzzing.
- ⑩ Interior boxes individually tuned.
- ⑪ **FREE attached wood storage box to hold F# and Bb bars.**
- ⑫ **FREE attached adjustable dampers.**
- ⑬ Built in mallet storage on each instrument.
- ⑭ Resonator box interior designed for optimal and equal resonance.
- ⑮ Lift ledges for easy carrying.

CONTRA BASS BAR SPECIFICATIONS

Rosewood Bar Quality:

- Prime, high-density, individual bars, **aged at least six years** for precise control of moisture content, thus ensuring long-term accuracy of tuning and pitch, even in humid climates.
- Deep, rich, penetrating marimba quality. Indeed, these rosewood bars are the very same bars as those on our Professional Bass Marimba.
- Flawless, professional grain and finish.

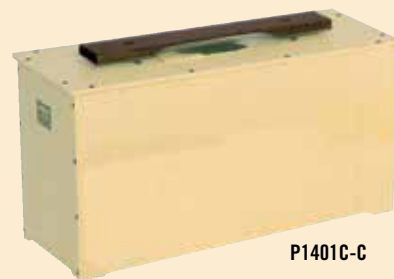

Bar Features:

- Bars mounted on individual tuned wood resonator boxes **with additional adjustable tuning mechanism.**
- Bars precisely tuned to A440.
- **Each bar overtone-tuned to both the first and second overtones (tonic and dominant).**

Resonator Boxes:

- Constructed of wood with laminate finish for durability and easy cleaning.
- Top and sides both glued and screwed together.

TECHLON BASS BARS

Synthetic Bar Quality:

- **Bergerault' Techlon** is a unique proprietary composite material that closely approximates the sound of rosewood.
- Surpasses other fiberglass/synthetic bar instruments in richness of tone quality.
- Provides maximum protection from variations in humidity.

For More Advanced Work in Orff Schulwerk

- Tuned tubular resonators create consistent concert hall sound.
- Intrinsic stands and wheels for easy mobility.
- Removable bars, adjustable height.

CHROMATIC METALLOPHONES

Features foot-pedal damper like a professional vibraphone!

CHROMATIC METALLOPHONES (with foot-pedal damper)

P1503 (PMSCH)	Soprano (C5-A6) Mallets included	\$899.95

CARE OF ROSEWOOD BARS

Since Bergerault® Rosewood Bars are of the highest quality and well-aged, they only require occasional cleaning with normal care and usage.

For optimal care of your rosewood instrument, we offer the following care instructions:

- Whenever possible, avoid extremes in temperature and humidity.
- Instruments should not be stored in front of windows, radiators, air ducts, or direct sunlight.
- After extensive use, bars may be cleaned with lemon oil (containing no silicones, linseed oil, or beeswax). Apply sparingly and polish vigorously with a soft dry cloth.

XYLOPHONE SPECIFICATIONS

- Aged rosewood bar and Technlon bar features and detailed specifications listed on page 11.
- Individual precision-tuned aluminum resonator tubes under each removable bar create perfect equal resonance.
- Entire section of resonator tubes joined together as a single removable unit.
- Sturdy, collapsible square tubular steel legs.
- Telescoping legs adjustable for height.
- Solid hardwood used in frame construction and covered externally with laminate finish for durability and easy cleaning.

GUIDE TO SELECTING INSTRUMENTS

It is an exciting time for teachers just starting out with Orff instruments or programs! We know how overwhelming buying new instruments for your classroom can be and therefore we offer this guide on what to consider when buying for your music program.

Types of Instruments: The Orff Instrumentarium consists of three different timbres- glockenspiels, metallophones, and xylophones; and three ranges of voice- soprano, alto and bass.

Sound: As diversity of sound is important, we suggest starting with at least one of each timbre. Metal instruments tend to overshadow wood in tonal volume, so it is wise to have more xylophones than metallophones. Alto and soprano instruments are economical and are the initial foundation of Orff sound. Bass xylophones make an excellent and important addition and are strongly recommended as an early purchase. Sub-contra and contra bass bars have true pitch and rich tones that make them excellent timpani replacements.

Building A Music Classroom: Financial limitations often make the process of building your classroom instrumentation take time, even several years. Be assured when you buy a Bergerault® Orff Instrument, you are buying an instrument that will remain in perfect condition and tune, and make adding new instruments a breeze. All Bergerault® Instruments will combine easily with others tuned to A440.

We know budget will always factor in your choice of instrument purchase and therefore we strive to provide the highest quality and the lowest possible price. Buying top quality instruments assures the life of the instrument for years to come.

Please contact our knowledgeable staff at 1-800-443-3592 for consultation and assistance.

Our ORFF Mallets are Made in the USA

A GUIDE TO ORFF MALLETS - FIBERGLASS VS BIRCH SHAFTS

Peripole, Inc. is pleased to offer quality Wound Orff Instrument Mallets in two shaft materials: fiberglass-which comes with purchase of our diatonic and complete chromatic instruments, and birch hardwood. Both materials have advantages and disadvantages that can factor in when choosing one for your classroom.

Fiberglass is extremely durable and break resistant. It has heavier head balance, which creates a feeling of "bouncing a ball" when playing. Many teachers and clinicians prefer and recommend this kind of balance. If mallet shafts are struck too forcefully against a hard surface, the protective coating on the shaft can eventually chip and

expose fiberglass which can splinter. Mallets can be repaired by covering or refinishing the damaged portion or replacement of the mallet.

Birch Hardwood is a thicker, lighter material and creates a larger or ergonomic grip and balanced feel. It is quite durable with normal use, however can be broken if stepped on or severely abused. If the shaft is struck too hard it will create visible imperfections in the wood. Luckily these are easy to repair by sanding and painting or covering.

Nylon is a splinter-free material and remains so even after extended use. It is more flexible than desired for longer mallets but is optimal for shorter ones. We now use nylon for all glockenspiel mallets.

ORFF INSTRUMENTARIUM EXPLORATION Mallet KIT

P2525 \$99.95

Seven pairs of assorted mallets labeled on each handgrip as Soft, Medium Soft, Medium, Medium Hard, Hard, Alto, and Soprano Glockenspiel. Encourages tonal experimentation and exploration.

PERIPOLE® HALO® RECORDERS

Superior Sound over Other Renaissance Style Recorders!

The Featured Recorder of the Carnegie Hall Link-Up* Program.

Unique Recorder Features: EXCLUSIVELY FROM PERIPOLE

- Dark brown textured ABS plastic. Renaissance shape. Looks, feels, and sounds like wood!
- Low C on **Soprano** and Low F on **Alto** can be produced immediately and easily.
- Air-tight joint fit.
 - **Soprano** - two-piece
 - **Alto** - three-piece
- Curved windway like expensive wood recorders to provide immediate and fluid response.
- Precision cut bores allow very few overtones making for ease of blowing and balanced scales in entire two octave range.
- No drifting of tone quality resulting in fewer overblown shrieks for the beginning student.
- Elegant dark, rich, woody tone quality - and plenty of focus.
- The overall superior quality and feel of these recorders inspires students to treat it like a professional instrument.
- Precise Intonation!

Enrichment Kit - Free with Halo® Complete Recorders

- **1 Peripole® Halo® Hanger** - the only recorder neck strap guaranteed to hold the instrument in the true vertical, ready-to-play position, with no interference to the thumb hole or the windway. Also contains the **Peripole Safety-Snap®** "breakaway" unit now required by many schools for added safety.
- **Extra-Wide** blue (Baroque) or yellow (German) **zippered case** to house the recorder with the Halo® Hanger attached. (Soprano models only)
- 1 self-adhesive **Peripole® "Thumb Spot"** to serve as a thumb positioner.
- 1 exclusive **Peripole® Fingering Chart** on card stock per order (with photocopy permissible).
- Cleaning rod and joint lubricant included.

*Link-Up is a program offered by the Carnegie Hall Weill Institute in which students learn and perform a musical piece in concert with their local symphony orchestra.

Introducing the latest addition to the Peripole® Halo® Family: Peripole® Halo® Recorder-Silver!

In 1993, Peripole revolutionized the school recorder industry by introducing the first renaissance style classroom recorder and the first commercially made recorder neck-strap with the launch of the Peripole® Halo® Recorder.

With tightened budgets around the country the need for a quality low-cost recorder has become higher than ever. We heard you, and after searching for and working to find the perfect fit, we are proud to announce the Peripole® Halo® Recorder- Silver, a lower priced instrument that maintains our high-quality standards.

*** Easy To Sanitize!**

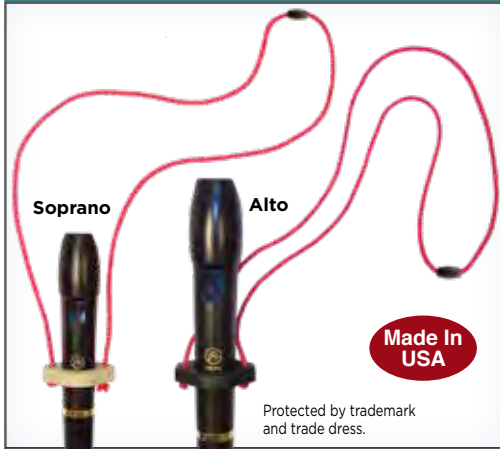

Peripole® Halo® Recorder-Silver

- P6020 SILVER BAROQUE SOPRANO \$4.95**
- P6020 SILVER GERMAN SOPRANO \$4.95**

An excellent quality instrument, exceeding quality standards for most classroom recorders. Difficult low and high notes are much easier to achieve and less likely to be overblown. Lightweight and functional, and also in Renaissance style, these recorders are the best bang for your budget! Comes in a light blue (Baroque) or light yellow (German) case with full enrichment kit, including Halo® Hanger.

Peripole® Halo® Hanger EXCLUSIVELY FROM PERIPOLE

Made In USA

THE MANDÉ INSTRUMENT ENSEMBLE

THE MANDÉ INSTRUMENT ENSEMBLE

Mandé is an ethnic group of different peoples in West Africa who speak related languages. Located chiefly in Guinea, Burkina Faso, Ivory Coast, Mali, and Senegal, Mandé people have beautiful tribal and musical cultures, rich in tradition, but also with modern adaptations.

It was Mandé ethnic groups that first developed the Djembe and Dundun drums, which form the core of their traditional ensembles. Other traditional instruments in the ensemble, and modern adaptations (the whistle) are found in this section.

Under the guidance of Kalani Das' and Ryan Camara's ground breaking curriculum, *West African Drum and Dance*, these instruments can help bring authentic West African music, dance and culture to life in your classroom.

- Made from highest quality pre-seasoned West African hardwood for quality and stability
- Pre-Tuned and ready to play!
- Hand manufactured by Mandé craftspeople to traditional standards of highest quality
- Size stated is approximate for traditionally made instruments
- Highest quality goatskin heads for djembes and cowhide for dunduns
- Woods protected by pre-treatment with Shea butter

West African Drum and Dance: A Yankadi-Macrou Celebration

by Ryan M. Camara and Kalani

This Book/DVD/CD set is a curriculum for the study of West African Music using The Mandé Instrument Ensemble. DVD and CD feature authentic village scenes and step-by-step instruction.

- P9506 Teacher Edition w/CD & DVD \$41.99★**
- P9507 Student Edition \$8.99★**

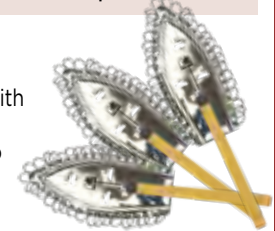

GHANAIAN CAXIXI P4327 \$9.50★

Seke-Seke - The seke-seke (SEH-KEH SEH-KEH), also called the "kese-kese", is a basket-shaped shaker from eastern Guinea comprised of small rocks or seeds housed in a woven covering of burlap and leather. They are always played in pairs using alternating hand motions. We are using the Ghanaian caxixi in place of the true seke-seke because of its great similarity and due to a lack of availability of the seke-seke for importation at this time.

TOCA KSING KSING (SINGLE) P4323 \$10.50^{ea}★

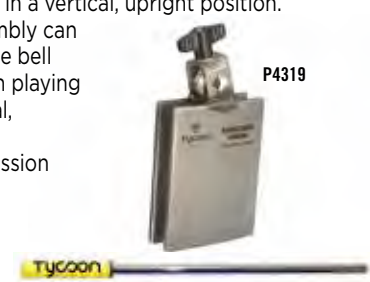

Ksing Ksing - The ksing ksing (kah-SING ah-SING) also called "sese-sese" (SE-say, SE-say) in some areas, are metal "ears" with attached metal rings that are sometimes attached to a soloist's or leader's drum to produce a rattle effect.

TYCOON DUNDUN BELLS

- † P4318 **Kenkeni- Small Bell \$39.00**
- P4319 Sangban- Medium Bell \$44.00**
- † P4320 **Dundunba- Large Bell \$49.00**
- † P4321 **3 Bell Set \$129.99**

- Crafted from heavy duty steel
- Use the clamp to attach the bell to a rack mount when playing dun-duns in a vertical, upright position.

P4331

Rio Red color shown in photos of congas and bongos.

In keeping with Toca's green and environmentally-friendly policies, the wood for these drums is harvested from a plantation in Thailand, where the drums are then lathed and handcrafted by local musicians. This carefully managed resource is much easier on the environment than wood taken from primary forests.

P4930

NEW!

Luminote instruments are colorful, engaging, high-quality percussion instruments for musicians of all ages. Their modern designs feature enhanced comfort grips, vibrant contrasting colors, and easy-to-clean and sanitize plastic materials. With striking tones, Luminote instruments provide a rich, creative experience and encourage deeper musical interaction, whether at home or school, in the studio or on stage.

*** All Luminote products are easy to sanitize!**

LUMINOTE STAGE PACK W/STORAGE BAG

P5757 \$69.99★

The Luminote six-piece percussion stage pack is perfect for use at home, in the classroom or on stage. Perfect for adding percussion effects to your musical performances.

One of each Luminote instrument included - 1 tambourine, 1 drum shaker, 1 pair of maracas, 1 guiro, 1 agogo, and 1 vibra shaker and storage bag

LUMINOTE EGG SHAKER SET

P5751 \$7.50★

The Luminote egg shaker pair include one red and one blue egg that are modern design, easy to hold, and produce a variety of sounds using different size shot.

P5751

LUMINOTE VIBRA SHAKER

P5753 \$16.95★

The Luminote blue vibra shaker is light weight and comfortable to hold and play. The sturdy handle provides an easy and balanced grip. Strike the ball against the palm of hand for vibrating sound effects. Resonating chamber features metal hammers that produce deep, rich sounds.

P5753

LUMINOTE GUIRO

P5754 \$12.00★

The Luminote guiro is comfortable to hold and durable. A unique design produces a wide variety of sound effects by scraping, tapping and pressing on the flexible body. Scaper is secured with built-in holder.

P5754

LUMINOTE TAMBOURINE

P5756 \$22.50

The Luminote Tambourine is solid, light, and sturdy with quality jingles. There is less impact on wrist due to internal shock absorbers and easy comfort grip improves playing experience. The hollow handle serves as a resonator box allowing adjustment of pitch and effects.

P5750

LUMINOTE DRUM SHAKER

P5752 \$8.75★

The Luminote Drum Shaker is easy to play with a wide spectrum of sound effects. Vary the sound by finger movements over the shaker's head. Modern design enables one-handed playing with an easy grip.

P5752

LUMINOTE AGOGO

P5755 \$12.00★

The Luminote blue agogo with an innovative, ergonomic design features a pair of durable resonator boxes in different sizes connected to a comfortable handle. Play samba-styled high and low percussion beats, rhythms and endless sound effects. Includes built in mallet storage.

P5755

LUMINOTE MARACAS

P5750 \$14.00★

The Luminote Maracas have a slim, ergonomic design with flexible shock absorbers inside the handle which make playing comfortable and fun. Play lots of crisp, high and low shaking beats or tap the shell to maximize sound effects.

P5750

The musical instruments in our catalog are not toys. They are intended for use by adults and children with adult supervision. Unless otherwise stated, the instruments are not recommended for children under 3 years of age.

WOOD-TONES AND GUIROS

Durable, select, seasoned, kiln-dried hardwoods. Sharp, clear resonant tones with a variety of pitches and timbres.

CLAVES

Particularly popular in Latin American music. To achieve a sharp, clear "click" tone, rest one clave across the cupped left hand between fingers and heel of palm. Strike sharply with other clave.

- P5101 LIGHT HARDWOOD CLAVES** \$4.95
- P5110 TYCOON HARDWOOD CLAVE** \$14.99
- P5111 LP EXOTIC WOOD CLAVES** \$24.99★

KALANI'S WORLD RHYTHMS

Instrument sets designed by Kalani Das to be used with his *World Rhythms* curriculum.

World Rhythms is a classroom curriculum of traditional world music arranged for drumming ensembles with songs from the Caribbean, Brazil, and West Africa. It's designed for easy accompaniment on ukuleles, guitar, piano, and Orff instruments.

The World Rhythms program was created by drummer, educator, and music therapist, Kalani Das, and is focused on helping students reach social and emotional goals while developing rhythm, timing, pitch, ensemble skills, and other important life skills, such as listening, collaboration and leadership.

Students learn how to tune, setup, and play the most commonly used drums and percussion instruments, preparing them for the next level of music making. World Rhythms instrument sets increase diversity in classroom music and may be mixed and matched for endless possibilities.

MANDÉ INSTRUMENT ENSEMBLE SETS

SEE BOOK ON PAGE 29 & 74.

Our special Mandé Instrument Ensemble Sets are designed to be used with the Book/CD/DVD set by Ryan M. Camara and Kalani, *West African Drum and Dance: A Yankadi-Macrou Celebration*. The Standard Sets contain the minimum number of instruments required to play all of the parts. The Deluxe Sets allow for greater participation.

For those of you who may already have Orff Xylophones, these sets are available without the Orff Xylophones as well.

The musical instruments in our catalog are not toys. They are intended for use by adults and children with adult supervision. Unless otherwise stated, the instruments are not recommended for children under 3 years of age.

Note Knacks by Kristin Pugliese are a system of music notation blocks that even your youngest learners can hold and manipulate to create and perform their own musical compositions. These specially proportioned blocks display a musical note on one side and its corresponding rest on the back. Blocks represent whole, half, quarter, eighth and sixteenth notes and are color coded so the name of each color says the rhythm. Note Knacks fit into three time signature frames that ensure children stay within the parameters of conventional notation while enjoying the freedom to create. Above all, Note Knacks are simple to understand and easy to use!

The benefits of using Note Knacks have been proven again and again:

- Enables hands-on learning
- Reveals the meaning behind notation
- Explains notes and rests simultaneously
- Teaches music standards while encouraging creativity
- Creates tangible assessments
- Provides concert material with minimal preparation
- Is suitable for large groups, small groups and one-on-one instruction
- Is appropriate for all types of learners from kindergarten up

NOTE KNACKS DICE

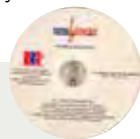

P8905 \$19.95★

Includes 3 large fuzzy dice - each with its own set of notation on it! One shows time signatures, the second shows notes and the last shows rests! These dice make learning notation a game!!

P8908 \$59.95★

Ready to take the next step? These notation blocks are proportionally correct for advanced rhythms!

Included are: One dotted whole note, 2 dotted half notes, 4 dotted quarter notes, 4 dotted eighths, 2 quarter triplets, 4 eighth triplets, 4 three quarter notes beamed, 4 two beamed eighths, 4 four beamed sixteenths, 4 one eighth beamed to two sixteenths, 4 two sixteenths beamed to one eighth, 2 one dotted eighth beamed to one sixteenth, A 6/8, a 9/8 and a 12/8 time signature frames

THE RHYTHM CLOCK

P8911 \$39.95★

Created by Joseph Vincelli from The Games Method, the Rhythm Clock includes 31 pieces representing whole, half, quarter, eighth, and sixteenth notes with their corresponding rests on the back. The clock also shows degrees, percentages, fractions, clock positions and north, south, east and west! A great way to make connections between many disciplines!!

NEW!

PERSONAL MUSIC KITS

For teachers going back to the classroom, these individual student kits are a great solution for kids to have their own personal instrumentarium without the need to share or touch others materials. For those who are learning and teaching from a distance, these kits will give your students engaging materials for living room music class!

All Personal Music Kits include a personal nylon string backpack for personal storage and ease of carrying.

Not seeing exactly the kit that fits your needs? Call our staff at 1-800-443-3592 during business hours to speak with one of our knowledgeable sales representatives to put together a custom kit order! We will work together with you to get the best price and kit for your classroom.

PLEASE NOTE: Lead can be a minor additive in manufactured brass. Although these cymbals have a protective lacquer coat, we cannot guarantee that any brass is completely free of lead.

TEACHERS NOTE: A variety of rhythm instrument sets have been prepared. The aim of our Education Department in arranging these outfits was primarily to effect variety and balance in tone color and instrumentation. Economy Sets and Enriched Sets were created to serve different budget considerations. All sets contain the same high-quality, fully guaranteed instruments. The price differential is due to the inclusion of more expensive items such as drums and tambourines.

The musical instruments in our catalog are not toys. They are intended for use by adults and children with adult supervision. Unless otherwise stated, the instruments are not recommended for children under 3 years of age.

PERIPOLE® RHYTHM ZOO

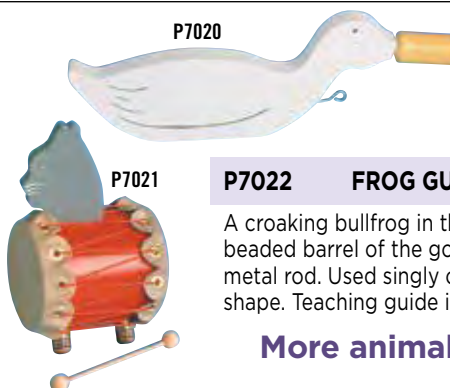

P7020 DUCK GUIRO \$24.95 ★

Scraping the gourd tone-block beak with the metal rod produces the quacking of a duck. Children can add duck sounds to songs to create their own musical sound play. Teaching guide included.

MADE IN USA

Peripole's Guide To The Ukulele

WHY ADD UKULELE TO YOUR MUSIC PROGRAM?

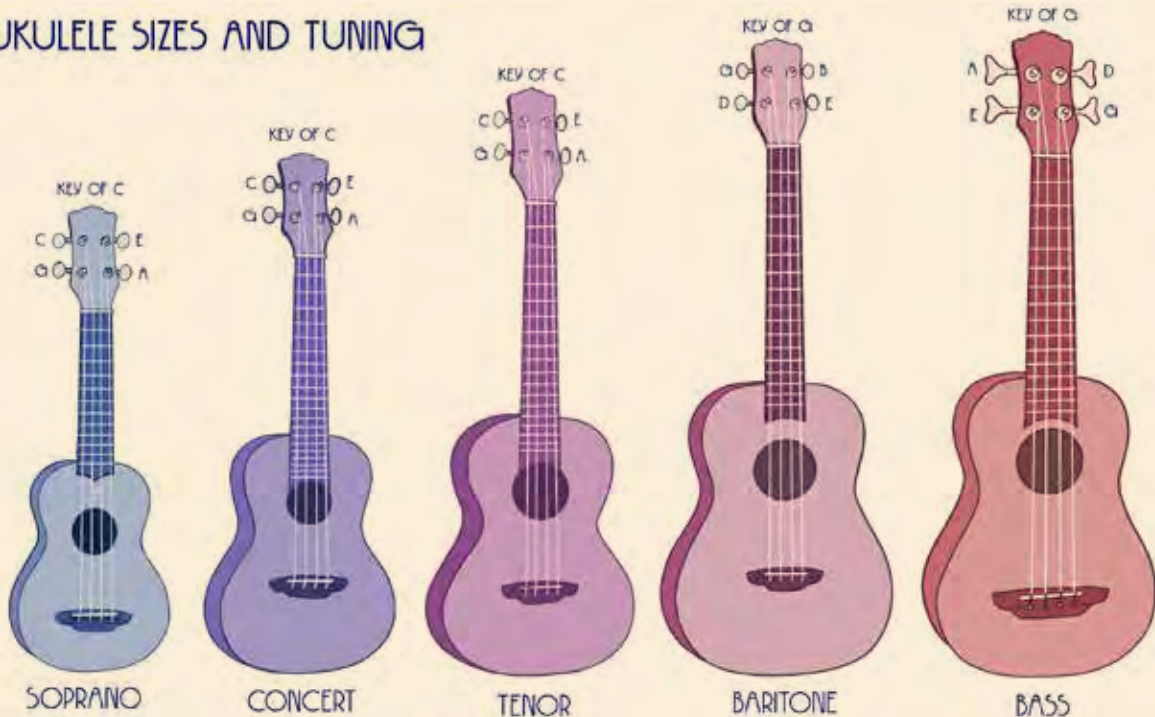

- The ukulele is easy to learn with high return in musicality for effort provided. Four strings make chording much easier than guitar and children will want to advance their musical skills and knowledge of music theory so they can take on increasingly more complex songs.
- Ukulele inspires kids to want to learn music! They can learn most contemporary songs on it and they want to learn to sing well with it. It is a very social instrument and can be a pathway to social engagement even from home. It is highly portable and easily shared. Not only that, but in comparison to other instruments the ukulele is relatively inexpensive.
- The Ukulele works well with your existing ensemble of elementary instruments. Easily integrated into your presentations along with movement, Orff instruments, percussion, and recorder.
- Skills learned and trained by ukulele practice are transferable to other string instruments. Learning chord formation, strumming technique and rhythm, and training fingers to create chords will be skills that can apply to other instruments if your students choose to branch out! Not just guitar, but also mandolin, banjo, bass and even orchestral instruments like violin.

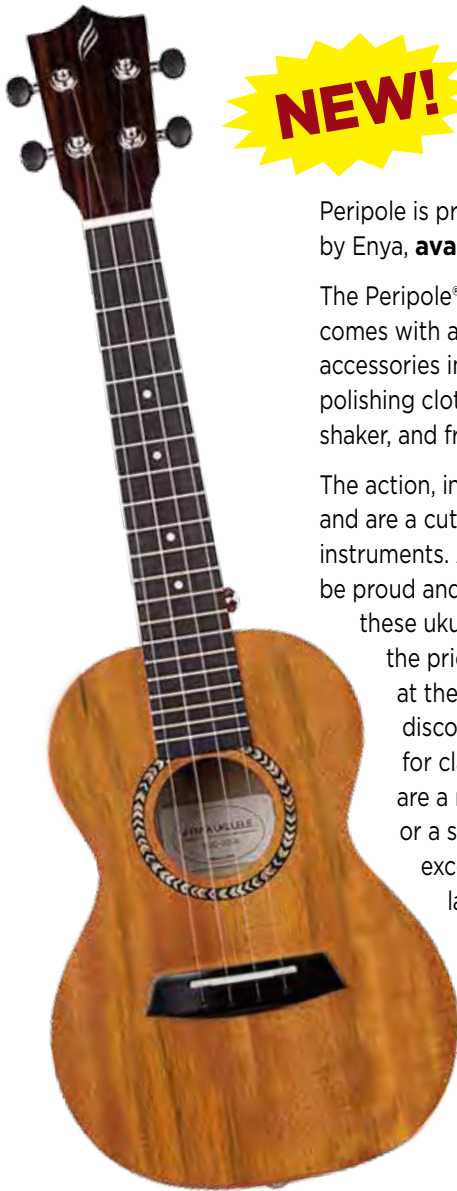

SKILLS LEARNED FROM A UKULELE PROGRAM

- Music theory
- Reading of tab and traditional notation
- Two hand playing method
- Rhythm and strumming
- Chord formation and theory
- Vocal advancement when paired with ukulele

UKULELE SIZES AND TUNING

NEW!

Peripole® Classic™ Ukulele By ENYA

Peripole is proud to introduce our newest innovation in ukuleles – the Peripole® Classic™ Ukulele family by Enya, **available exclusively from Peripole.**

The Peripole® Classic™ is an affordable, high quality ukulele, in soprano, concert and tenor models, that comes with a complete kit of high quality accessories, as well as factory-installed strap buttons. The accessories included are a deluxe padded gig bag, chromatic tuner, strap, extra set of strings, capo, polishing cloth, a set of three picks, finger shaker, and free lessons on OKMusician App.

The action, intonation, and sound are flawless, and are a cut above the average value-priced instruments. Any student or musician would be proud and motivated to learn and play on these ukuleles. And their best feature is the price! Peripole is offering these kits at the following prices with special discounts for music educators and for classroom sets! Whether you are a musician picking up a ukulele, or a student first learning these are exceptional packages designed to last and to grow with you.

Peripole is proud to be an Educational Distributor for the **Luna** line of high quality ukuleles and guitars. Most Luna Ukuleles come equipped with Aquila Strings, the best on the market, and have excellent tuning retention, intonation and a rich sound. They also have beautiful designs, crafting, and appointments.

Luna's major series include the **Vintage Series**, with an excellent combination of value and quality; the **Tattoo Series**, featuring beautiful designs with gig bags included; and the **High Tide Series**, featuring exotic hardwoods, deluxe appointments, exacting crafting, and gig bags.

VINTAGE SERIES

The Luna Vintage Series is the preferred series for classroom sets, combining excellent quality with value pricing. Their classic etched solar sound hole decoration, Aquila strings, and a variety of styles make this the teacher's choice.

All models have walnut bridges and fretboards.

TATTOO SERIES

Extracting design ideas from traditional monochrome Hawaiian body ornamentation, these ukuleles look and sound stunningly beautiful. The **TATTOO** series designs are primarily based on waves and sharks teeth which are also echoed as fret markers. The **HONU** design is based on a stylized Hawaiian turtle (honu). Fret markers on this instrument are also stylized sharks teeth.

P7070	Soprano Tattoo Pineapple	\$99.00★
P7071	Soprano Honu	\$99.00★

- Aquila strings
- Laser etched design
- Gig bag

BAMBOO SERIES

Luna continues to push ukulele innovation with the introduction of its new, environmentally friendly bamboo ukuleles! This new material has a crisp, vibrant tone with amazing volume projection that any player can appreciate. Built with a mahogany neck, walnut bridge and fretboard and stunning pearl moon phase inlays, the laser etched leaf design curves around the sound hole of the natural bamboo body of the instrument to give it a timeless beauty. Gig bag included.

P7360	Luna Bamboo Soprano	\$119.00★
P7361	Luna Bamboo Concert	\$129.00★
P7362	Luna Bamboo Tenor	\$149.00★

FLAMED ACACIA SERIES

Luna's Flamed Acacia series have a full sound that's just as stunning as its natural rippling wood grain! Acacia wood is a favorite among players for its warm sound and playability and as a more sustainable alternative to its cousin Koa wood. With an acacia wood body, mahogany neck and walnut bridge and fretboard, this ukulele has all the power of a high-end tone wood without the costly price. Gig bag included.

P7365	Luna Flamed Acacia Soprano	\$119.00★
P7366	Luna Flamed Acacia Concert	\$129.00★
P7367	Luna Flamed Acacia Tenor	\$149.00★

HIGH TIDE SERIES

Luna's **HIGH TIDE** series uses four of the finest tone woods to create a diversity of sounds within this high quality series. All High Tide Ukuleles have abalone fret markers and full moon themes in a stunning design with decorative bindings.

Most importantly, the sound and intonation of these fine ukuleles is rich and vibrant. All models have pre-amps for electric amplification, but also have exquisite acoustic sound. With so many models to choose from, these are great ukuleles for all players from beginners to experienced musicians.

All models have walnut bridges and fretboards and include a gig bag.

P7370	Luna High Tide Exotic Mahogany Soprano	\$169.00★

P7079	Luna High Tide Baritone Zebrawood	\$329.00★
P7092	Luna High Tide Bass (see pg. 51)	\$299.00★

Limited Quantity

The **HIGH TIDE** series now comes in a four amazing tone woods!

EXOTIC MAHOGANY: Has a unique tonal clarity and open brilliance where the "punchy" mid-tones really shine.

OVANGKOL: Fully balanced with a pronounced mid-range, sparkling trebles and highs and deep lows. Well rounded for all playing styles.

KOA: Sweet, mellow and warm sound that is direct with less overtone, but open sustain. Very mid-ranged and balanced.

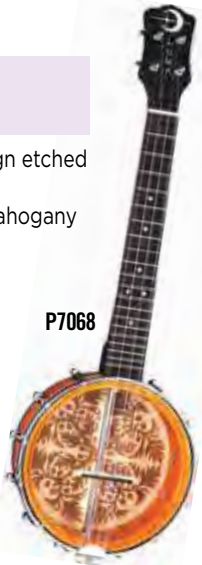

ZEBRAWOOD: Used for Luna's baritone ukulele this wood has well defined basses and trebles with a guitar-like power in volume. Excellent distribution of voice with dark over-tones.

**PERIPOLE IS PROUD
TO FEATURE
KOALOHA UKULELE
AS OUR PREMIER LINE!**

Passion. Craftsmanship. Technology. History. Culture:
These are all things every KoAloha Ukulele embodies.

KoAloha Ukuleles are considered one of the finest brands on the market today. Started over 20 years ago by Alvin Okami and his sons, KoAloha has reinvented the ukulele. Hand crafted from solid koa wood and utilizing their own unique building techniques, bracing system, and "Musubi" sound hole, these ukuleles shine above the rest.

OPIO SERIES

Opio means "junior" in Hawaiian, and Opio Ukuleles are built just like their big brothers. Made at KoAlohas factory in Thailand using the same parts and techniques, they look and play remarkably like their Hawaiian family models, but come in at a lower price point. The Opio model is crafted from solid Acacia wood and has a satin finish.

DREADNOUGHT

P7200	Dreadnought	\$139.95
-------	-------------	----------

Dreadnought guitars have the deep, round, figure-8 shape that have become the standard of bluegrass, folk, and other genres. They offer a deep, full sound and are generally larger than other guitar body styles. Steel strings.

- Spruce top
- Nato back and sides
- Rosewood fretboard
- Natural finish
- Chrome tuners
- S35 Acoustic

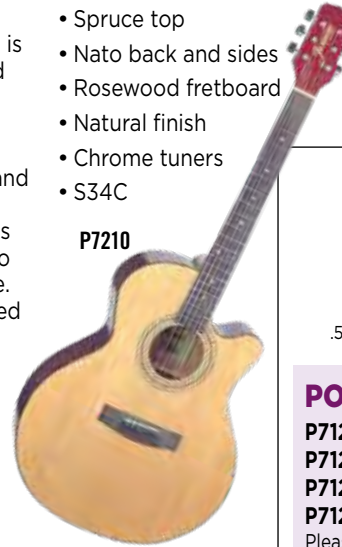

P7200

CUTAWAY

P7210	Acoustic	\$165.95
-------	----------	----------

Cutaway body style has a pleasing, rounded profile that is narrow at the waist, yet broad behind the bridge creating a soundboard that offers a balanced frequency response with deep bass, clear treble, and a sweet, round midrange that projects well. The body carries the depth of a dreadnought to ensure a great level of volume. It has the feel of a small-bodied guitar yet yields impressive performance. The deep cutaway allows easy access to the instruments higher frets and range.

- Spruce top
- Nato back and sides
- Rosewood fretboard
- Natural finish
- Chrome tuners
- S34C

TECHNOLOGY

APOGEE HYPE MIC

P9900 \$349.00★

HypeMiC features studio-quality analog compression that's easy to use and brings the magic to your vocals, voice-overs, instruments, percussion, and podcasts - anything you record! With HypeMiC and your iPhone or computer, you can make amazing recordings on the go.

- Studio-quality analog compressor
- Headphone output with Blend feature offers zero latency recording
- Premium accessories kit includes tripod, pop filter and carrying case
- No configuration required, just plug in and record with any audio app
- Works with iOS, Mac and PC

P9900

SAMSON AUDIO MIC Q6

P9902 \$39.99★

Samson's Q6 Dynamic Microphone brings a high level of accuracy and audio performance to a variety of live and studio applications, including miking vocals, guitar cabinets, drums and more. Designed for accuracy, as well as durability, the Q6 is a solid performer no matter the environment. A versatile tool in the recording studio, the Q6 is a workhorse microphone perfect for a number of applications. As the Q6 is equipped to handle high SPLs, it allows live vocals to sound huge and crystal clear, but it is also great for closing miking instruments such as snare drums, guitar amps and more.

P9902

SAMSON AUDIO MIC Q2U

P9903 \$69.99★

The Q2U microphone is one of the best microphones for podcasting and home recording. The flexibility of the USB and XLR outputs makes it an ideal tool for someone getting started by recording direct to a computer, and can continue to be used as studios grow to include mixers and audio interfaces. The packaging is updated and includes accessories to ensure the best experience during the life of the product.

- USB output for connecting to any Mac or PC device
- XLR output for connecting to any mixer/PA system
- Includes mic clip, tripod stand, tripod stand extension, USB cable (2.25m) and XLR cable (3m)

P9903

BLUE ENCORE 300 MIC

P9901 \$199.99★

enCORE 300 is Blue's flagship condenser performance microphone, and brings Blue craftsmanship and innovation to the stage. It features a proprietary, hand-tuned condenser capsule so you can achieve open, detailed sound for every performance.

- Transducer Type: Condenser capsule
- Polar Pattern: Cardioid
- Frequency Response: 40Hz-20kHz
- Sensitivity: 11mV/PA
- Output Impedance: 25 ohms
- Maximum SPL: 146dB SPL

NOTATION MATERIALS

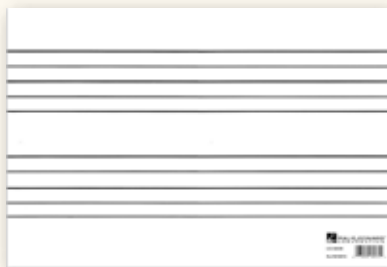

P8840 Wipe Clean Music Board **\$7.95★**
These colorful boards are a fun way to practice notation, whether in a group lesson or in one-to-one tuition. The red side is portrait-oriented with multiple staves; the reverse blue side is landscape oriented with a larger/longer set of staves. Includes a wipe-clean music pen, with an eraser on the end.

P8842 Erasable Teaching Board **\$29.99★**
You'll never have to erase the chalkboard again! This unique set consists of six sturdy laminated chart boards with music staves, each 22.5" x 34.5". Write on them with dry erase markers, and though they have the look of permanent markers, the Chart Boards are easily erased with a tissue.

P8841 Erasable Music Large Boards **\$24.95★**
10 board pack. Two staves are printed on one side for teaching musical notation; the other side is blank and may be used for drawing rhythms, musical symbols, terminology and just plain fun! Great for group work!

P9750 Wirebound Manuscript Paper **\$4.99★**
96-page wirebound book; 12 staves per page; 8 1/2" x 11"; Music Notation Guide.

P9751 Pad Of Manuscript Paper **\$4.99★**
tear off pad with firm backing for easy writing; 32 sheets (64 pages) printed both sides; 12 staves per page; 8 1/2" x 11"; punched to fit all ring binders; Music Notation Guide

P9752 Guitar Tab Manuscript Paper **\$7.99★**
96-page wirebound book; 12 staves per page; 8 1/2" x 11"; Guitar Notation Guide.

Please call for Special Discounts. For further information and special quotations, please contact us.
PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE. Shipping charges will be prepaid and added to your invoice.

TERMS – Net 30 days from date of invoice.

OPEN ACCOUNT BILLING – All public schools automatically have full open-account credit. Please make certain to include Purchase Order number, where required. Individual teachers making purchases will be extended full school discounts, payable in advance by check or credit card (VISA, MasterCard, Discover or Amex only).

PROMPT SHIPMENT OF ORDER – Orders will be shipped within a few days via the most expeditious carrier. In the interest of serving you more efficiently, we reserve the right to make partial shipment when a delay is unavoidable. We will bill only for shipped portions. Back ordered items will be shipped as soon as possible.

All orders are shipped either from our facility in Salem, Oregon, or, at our discretion, we may have an item shipped directly from our supplier.

SHORTAGE OR DAMAGE IN SHIPMENT – Please check contents carefully according to the enclosed packing slip. Be on the lookout for small items. Please report any discrepancy within 10 days. Should damage occur, please contact us at once to report damage or shortage. Please be mindful of the number of cartons to be received to make certain that none is missing and all have been received.

DISCRETIONARY RETURNS – We want you to be completely satisfied with your purchase. Any item may be returned within 30 calendar days of receipt but must be received in first class, new condition, or no refund can or will be issued. Items returned under this policy must be shipped at your expense and are subject to a 10% restocking fee. If an item is received as a discretionary return and is not received in first-class new condition, you will be notified that the item was not received in satisfactory condition and you may then choose to have the item returned to you at your expense.

A letter must be enclosed with the returned item stating the customer's complete name and address, phone number, email address, and reason for return.

OUR TRIPLE GUARANTEE – Peripole, Inc. guarantees that all of our products are of excellent quality, workmanship, and that their musical function will be accurate, as intended. If an item is found to be of insufficient quality, workmanship, or musical function, it will be considered a defective item and will be subject to our defective item return policy. Further, we guarantee that we will, upon request, match or beat any currently advertised price on an identical item sold in the USA. This advertisement must show that the advertised price is currently in effect.

Please Note: Due to hygienic considerations, all sales on instruments which are played by mouth (recorders, didgeridoos, whistles, etc.) are final, and they cannot be returned under our discretionary returns policy. If these items are defective, they can be exchanged for a replacement under our defective item policy.

DEFECTIVE ITEM RETURN – We do our very best to send you items of only the highest quality possible, free of defects. If you happen to receive a defective item, please call our office at 800-443-3592 or 503-362-2560 (8:30 am to 5:00 pm Pacific Time) to initiate a defective item claim and receive an RMA Number. Your claim will be evaluated and, if approved, our representative will issue an RMA Number and we will send you a UPS pre-paid shipping label that you can use to return the item to us at any UPS shipping outlet. The RMA Number must be written clearly and visibly on the outside of the box. Also, a letter must accompany the item inside the box stating the customer's name, address, phone number, email address and RMA Number. No items can be accepted without an RMA Number.

It is the customer's responsibility to pack the item in such a way that it is well padded and protected, and is received in first-class new condition. With the exception of the stated defect, if the item is not received in first-class new condition, the item cannot be returned. We will not pay for expedited shipping and we do not accept COD's. We may, at our discretion, make alternative shipping arrangements with our customers.

Upon receipt of the item, and final approval of the defective item claim, a replacement item or items will be shipped to the customer at our expense by normal shipping methods previously stated. Should the customer request a refund instead of a replacement, this will fall under our discretionary returns and a 10% restocking fee will apply.

All refunds, will only be issued to the same credit card or other account that was used to pay for the item initially.

All claims for defective items must be made as soon as the flaw is observable. In most cases this is upon receipt and therefore should not occur more than 10 days after receipt. All defective items claims must be made within 30 days. In special situations where inspection is delayed, this may be extended at our discretion up to 90 days maximum.

We reserve the right to make changes to our refund and return policy without prior notice. The current and complete policy is posted on our website, www.peripole.com.

DISCONTINUED ITEMS – We reserve the right to discontinue any item without notice.

CHANGES IN DESIGN – It is the policy of Peripole, Inc., and its suppliers, to constantly upgrade products. Therefore, we reserve the right to make changes in design and specifications and to ship the new product.

ORDER INFORMATION – Please complete each box of the order form. Please make certain to clearly indicate the exact quantity, catalog number and name of item desired. **Credit card orders: We accept VISA, MasterCard, Amex or Discover ONLY.** Please make certain to include account number and date of expiration, with 3 digit code on back of card (4 digits on front for Amex), and the card billing address.

HOW TO PLACE ORDERS –

- Call our toll-free number: **800-443-3592**
- Fax us toll-free: **888-724-6733**

Outside USA

- Email: contact@peripole.com
- Online: peripole.com
- Mail orders to address on the order form.

CONFIRMING ORDERS – Please state “Confirmation Copy” on all confirming orders to avoid duplication of shipment and additional charges to you for returned merchandise. On returned duplicate orders, customer is responsible for all shipping charges and a 10% restocking fee.

SHIPMENTS TO ALASKA, APO, HAWAII, US TERRITORIES AND OTHER COUNTRIES – Orders will be shipped by United States Postal Service or at times other carriers. Please contact us with your order information for shipping charges.

C.O.D. SHIPMENTS – We do not ship any orders C.O.D.
